We are passionate about partnering with good people and organizations to provide exceptional custom trade solutions.

“We build thoughtful identities and experiences to elevate and empower BUSINESSES.”

Export experience

Exporting FMCG items involves ensuring quality, compliance, and smooth logistics. Proper packaging, labeling, and adherence to international food safety standards are crucial. Key documents like the Health Certificate, of Origin, and Bill of Lading help streamline customs clearance. Temperature-sensitive items require specialized shipping. Partnering with reliable logistics providers ensures timely and safe delivery to global markets.

A graphic with a light blue background. On the left, a white line drawing shows a hand holding a bottle. In the center, the word 'Export' is written in a large, green, cursive script, and 'PORTFOLIO' is written below it in a smaller, yellow, serif, all-caps font. On the right, a realistic image of the Earth (globe) is shown.

In her right arm, she carries a white woven basket filled with groceries, including a loaf of bread, a green pepper, and some red tomatoes. In her left hand, she holds a clear plastic bag containing blue round items, possibly apples or oranges. A small brown shoulder bag is slung across her chest. The background is a solid light blue.

We do labelling & special instruction on products as per special instruction. The Labelling serves as a primary link of communication between the manufacturer or packer of food on the one hand and Distributor, Seller and User or Consumer on the other hand. By way of labelling the manufacturer introduces his products to his product by providing all the information regarding his products on the label.

Food and beverages are the most popular and highly in-demand FMCG categories. It consists of various subcategories that have their dedicated markets. These products are in demand from all walks of life.

The FMCG industry is the fourth largest sector in the Indian economy. The government initiatives such as 51% foreign direct investment (FDI) in multi-brand retail and 100% FDI in food processing have further propelled the growth of the sector. This has made it easier for players in the sector to make and sell products, create jobs, and make people notice their brands. The FMCG market in India is projected to grow at a CAGR of 14.9% to US\$ 220 billion by the next couple of years while the packaged food market in India is anticipated to grow twofold to US\$ 70 billion in the next few years.
